

Hudsonotes

Second Ten-Year Index

compiled by
George Schmidt

HERE'S AN INDEX for all of the Hudsonotes column articles published in the *White Triangle News*, May/June 1988 to March/April 1998. A first ten-year index was published in the March/April '88 *WTN* for all of the Hudsonotes articles which appeared before that. This new index was due a year ago, in '98, but was postponed because of the length of the series of columns about Hudson wheels and tires.

In this index, each issue of *WTN* is again identified by its year plus two letters, thus; J/F for January/February, M/A for March/April, M/J for May/June, J/A for July/August, S/O for September/October, and N/D for November/December. Also to save space, page numbers for individual columns are not included here (see contents listing in each issue, p. 1). For convenience, a few *WTN* issues not from the specified ten-year period are also occasionally included in the listings here (these are enclosed in parentheses).

Please note, however, that the Hudsonotes articles can make no claim to offering complete coverage of all Hudson mechanical and historical topics, but are

mainly supplementary. See also the Hudson factory manuals, the general auto repair manuals of years past; and the many excellent technical articles and suggestions by other writers which have appeared in *WTN* in the past and down to the present. The HET Tech Advisors, too, can often provide information which is not otherwise available.

It has been suggested to me that what the *WTN* really needs is a complete listing of all of its subject matter. This could possibly be issued in a separate booklet, similar to that formerly offered by the late Louis Backhus... if anyone at present wishes to attempt the task. Or more practicably, perhaps other *WTN* columnists could be persuaded to assemble an index listing of their own work to date. There is certainly much information in those columns which is too valuable to be lost merely because it later cannot be found when needed. For now, however, here are the topics (and people) mentioned in Hudsonotes since 1988:

Accessories for Hudsons: see earlier series of columns as listed in index of M/A '88; also, series continued in M/J, J/A, S/O, N/D '88, & J/F, M/A '89; & N/D '93, M/J '94. See also name of accessory item (and N/D '98; M/A '99).
